

This game was created using Microsoft PowerPoint and includes animations, buttons, and links that only work properly when opened with PowerPoint on a computer.

**Important:**

Do NOT open the file directly in Google Slides.

This will break the game's functionality – buttons, links, and animations will not work as intended.

**To use the game correctly:**

1. Download the file to your computer (click "Download").
2. Open the file with Microsoft PowerPoint.
3. Start the presentation in Slideshow Mode (press F5 or click the "Slideshow" button in the menu).

Only this way will the game function as intended.

*If the game doesn't work or something seems broken, feel free to contact me at [petar@aktivnipotrebiteli.bg](mailto:petar@aktivnipotrebiteli.bg) and I will send it to you directly by email.*
